softline

Made in Italy dal 1979.

Softline nasce nel 1979 e intraprende da subito un proprio percorso di ricerca, nell'universo dei materiali, dei colori, degli ambienti e delle tendenze dell'arredo contemporaneo. È la storia di un'azienda italiana che ha ampliato sempre di più il proprio know-how e le proprie possibilità espressive, esplorando i più diversi linguaggi e accostamenti: dal metallo alle materie plastiche, dal legno ai tessuti. Oggi la ricerca e la sperimentazione incontrano le nuove sfide del futuro relative alla sostenibilità della materia prima, alla durata e al fine vita dei prodotti. A partire dall'utilizzo di solo legno certificato FSC, Softline vuole mantenere una promessa progettuale rispettosa dell'ambiente e delle persone con l'obiettivo costante di evolvere e innovarsi.

Made in Italy since 1979.

Softline was founded in 1979 and immediately began its own path of research into the universe of materials, colours, environments and contemporary furnishing trends. This is the story of an Italian company that has increasingly expanded its know-how and expressive possibilities, exploring the most various languages and combinations: from metal to plastics, from wood to fabrics. Today, research and experimentation meet the new challenges of the future relating to the sustainability of raw materials, durability and the end-of-life of products. Starting with the use of only FSC-certified wood, Softline wants to keep a design promise that respects the environment and people with the constant aim of evolving and innovating.
